

Site plan

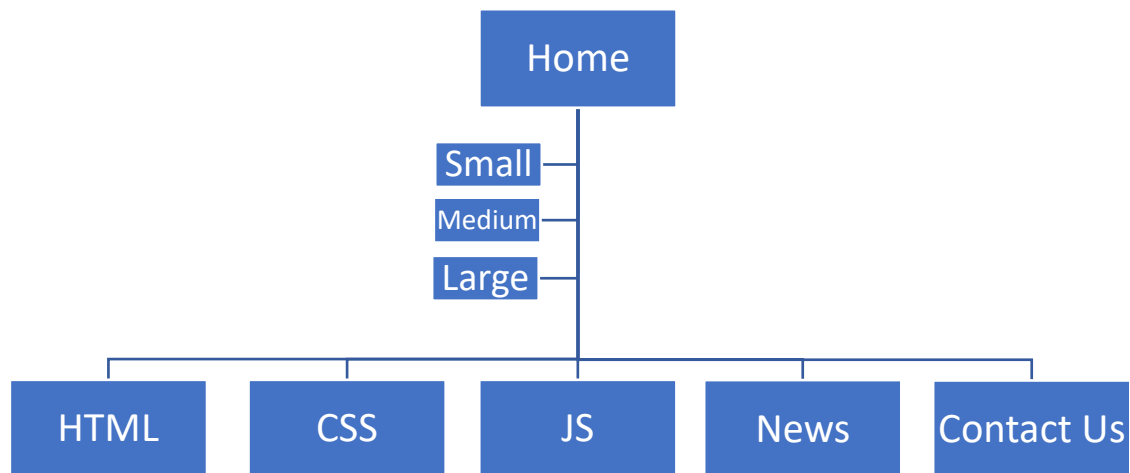

Site Purpose

The purpose of this site is to give a web development guide for newbies and whoever wants to remind the basics of web development. This site will give the chance to learn new skills, reinforce abilities and inform users about news, tips, and tricks

Target Audience and Scenarios

Newbies, that is who this site is for. Also, anybody that wants to contribute to the cause. A student who is starting to learn how to code, and how to make a website. A business owner that is looking to play around with their website. A child in whom the spark of development has been awakened

Site Map

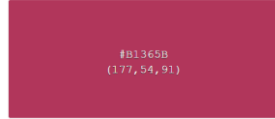

Color Scheme

The website colors will be the following:

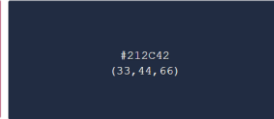

#2596be Color Hex

#b1365b Color Hex

#212c42 Color Hex

#04aa6d Color Hex

As well as black, white for text

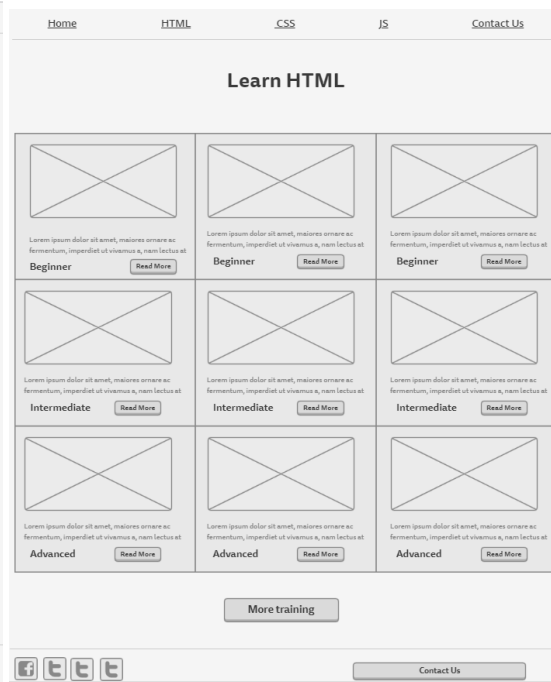

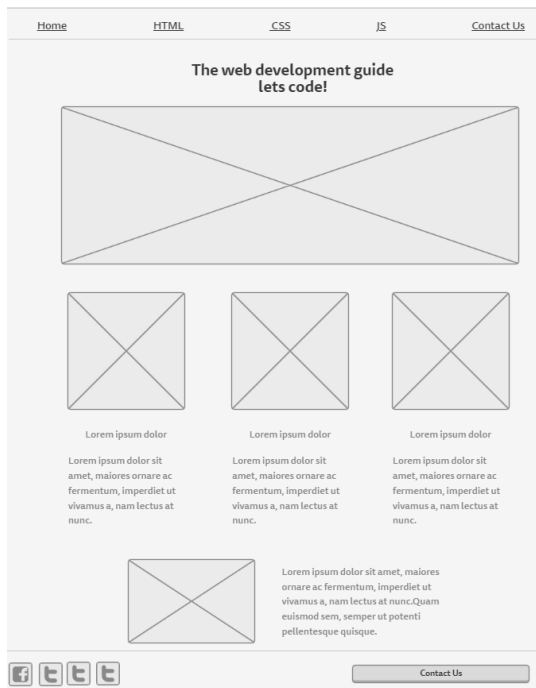

Typography

From google fonts the Lato (regular 400) font will be used .

Lato
